Premiera Footwear, Inc.  
1313 Trendy Lane, Emeryville, CA 94111  
Phone: (416) 245-5252 • E-Mail: [nick@premierafootwear.com](mailto:nick@premierafootwear.com)

# Executive Summary

*Footwear is a \$54 billion industry, in the U.S., with women accounting for over 60% of sales. In recent years, increased reliance on overseas manufacturers has lowered prices and high technology has shortened the production cycle, accelerating consumer migration toward better designed, trendier shoes. In the process, however, U.S. design innovation has substantially deteriorated, with predictable mimics of existing Italian designs becoming the norm. Premiera Footwear intends to revitalize the U.S. women's footwear industry, by leveraging unsurpassed American design aptitude and technological savvy, with highly developed overseas artisan factory relationships, to generate trend-setting footwear, at modest prices and unbeatable product turnaround times. In 2004, the market for high fashion shoes, targeting 18 to 35 year-old women, in the six fashion-leading metropolitan areas of the U.S., is projected to be \$4.4 billion — by 2008, this figure is expected to reach \$5.6 billion, an average annual increase of 6.1%. Keys to success will include establishing a high profile retail store and design studio, in Manhattan, NY, conducting an effective, multi-channel marketing campaign, optimizing key operating processes and strategic supply chain alliances, and promoting research and development of new services and markets. The owner-founders possess heavy industry experience and will be supported by key personnel and advisors.*

**Company.** Premiera Footwear is a recognized U.S. designer and manufacturing agent of fashion-forward, women's footwear, under its own brand, and on behalf of several retail giants. It is a Washington S corporation, with administrative offices in California and New York, that is seeking to expand its retail presence.

**Products and Services.** The company creates original women's footwear designs that are handcrafted in artisan factories, for sale under its branded name, on both the retail and wholesale level, and it also acts as a design and manufacturing agency for other footwear companies, on a commissioned or retained basis.

**Market.** In 2004, the market for upscale, trendy footwear, involving 8.1 million style-conscious women, aged 18 to 35, in six targeted, fashion-leading metropolitan cities, in the U.S., is estimated to be over \$4.4 billion — by 2008, this figure is expected to reach \$5.6 billion, which is an average annual increase of 6.1%.

**Industry.** The U.S. women's footwear industry is dominated by large, branded companies that rely on overseas manufacturing ties and design agency services that only create predictable product — high overhead, reactionary design mentality and pressure to unload obsolescent inventory have resulted in a stale industry.

**Strategy.** Strategic objectives include maximizing company revenues, by establishing a high profile, retail presence in Manhattan, NY; promoting Premiera offerings, through effective, multi-channel marketing; optimizing key operating process; and promoting research and development of new products and new markets.

**Implementation.** The operating plan centers on identification and build-out of suitable commercial space in Manhattan, NY, to launch the company's inaugural retail outlet and design studio, by October 1, 2004. The marketing plan relies on multi-channel advertising and strategic alliancing to generate exposure and sales.

**Management.** The owner-founders possess a wealth of women's footwear industry experience, and are both graduates of the famed Ars Sutoria shoe design school, in Milan, Italy. They will be supported by an equally experienced Director of Operations, along with professional advisors, in both law and accounting.

**Risk Assessment.** Premiera is positioned to revitalize the U.S. women's footwear industry, by merging unsurpassed design capabilities, high technology and artisan craftsmanship. Successful financing, timely roll-out of a signature retail facility and continued high consumer demand are all viewed as highly achievable.

# Financial Summary

Premiera Footwear is seeking lender commitments, totaling \$250,000, by April 1, 2004. This cash infusion would result in substantial revenue and income growth, during the five-year planning period, and position the company for further growth and expansion, within the U.S., and globally.

**Capitalization Plan.** Premiera proposes to pursue its strategic objectives, by obtaining lender commitments, totaling \$250,000, by April 1, 2004. This cash infusion would be used to cover identifiable working capital requirements, totaling \$150K, along with identifiable capital expenditure requirements totaling \$40K, comprised of property, plant and equipment, and to establish contingent cash reserves, totaling \$60K.

**Projected Operating Results.** Sales are projected to rise, from \$3,008K, in FY1, to \$6,013K, in FY5. During this period, net income is projected to increase, from \$500K, in FY1, to \$734K, in FY5. Monthly net cash flow reflects seasonal variation; minimum cash balance is \$60K and ending FY5 cash balance is \$2,381K.

# Company

*Premiera Footwear is a recognized U.S. designer and manufacturer of fashion-forward women's footwear, under its own brand, and on behalf of several retail giants. It is a Washington S corporation, with administrative offices in California and New York, seeking to expand its retail presence.*

**Mission-Vision.** The company's five-year mission is to become the leading branded provider and design manufacturer of trend-setting women's footwear in the U.S. By establishing an upscale, retail presence in Manhattan, NY, that complements its wholesale distribution of branded shoes in high-end boutiques, throughout the country, by leveraging its design agency and overseas manufacturing capabilities to satisfy the customized needs of such retail behemoths as Nine West, Steve Madden and Bebe, and by optimizing its key operating processes to minimize costs and turnaround time, Premiera Footwear intends to dominate competition in mid to high-end markets. The long-term vision is to become synonymous with unique and sexy women's footwear styling, and to expand Premiera's presence to fashion capitals, around the world.

**Business Opportunity.** Footwear is a \$54 billion industry, in the U.S., with women accounting for over 60% of sales.<sup>1</sup> In recent years, two major phenomena have accelerated general consumer migration toward better designed, trendier shoes — a dramatic shift, from high-priced, domestic manufacturers, to lower priced overseas manufacturers, and tremendous globalization and shortening of the production cycle, due to technological advances in communication.<sup>2</sup> However, in the process, U.S. design innovation has substantially deteriorated, with predictable mimics of existing Italian designs becoming the norm. Premiera Footwear intends to revitalize the U.S. women's footwear industry, by leveraging unsurpassed American design aptitude and technological savvy, with highly developed overseas artisan factory relationships, to generate trend-setting footwear, at modest prices and unbeatable product turnaround times. In 2004, the market for high fashion shoes, targeting 18 to 35 year-old women, in the six fashion-leading metropolitan areas of the U.S., is projected to be \$4.4 billion — by 2008, this figure is expected to reach \$5.6 billion, an average annual increase of 6.1%.<sup>3</sup> Keys to success will include establishing a high profile retail store and design studio, in Manhattan, NY, conducting an effective, multi-channel marketing campaign, optimizing operating processes and strategic alliances, and promoting research and development of new services and markets. To achieve these objectives, Premiera is actively seeking loan commitments of \$250,000, by April 1, 2004.

**Legal Entity and Ownership.** In 2001, Premiera Footwear, Inc., established itself as a Washington S corporation, operating as Primiera Footwear. Its two shareholders, Lan Contino and Nicolas Luciano, each hold a 50% ownership interest, and participate equally in day-to-day management duties.

**History.** The owner-designers share a 9-year history, while working in the women's shoe department of Nordstrom, and were roommates at the esteemed Ars Sutoria, a shoe design school, in Milan, Italy. Mr. Luciano went on to design shoes for a women's private label, while Mr. Contino designed shoes for Bebe, David Aaron, Skechers and Mia. In 2001, they seized an opportunity to merge their superlative design skills, technological advances in the industry, and well-honed overseas manufacturing relationships, by forming Premiera.

**Location and Facilities.** The company presently maintains administrative and operating offices, in Secaucus, NJ, Seattle, WA, and Emeryville, CA. In late 2003, the Seattle office will be vacated, in favor of a temporary office in New York, NY, to oversee the build-out of a high profile retail store, design studio and showroom, in Manhattan, scheduled for grand opening, on October 1, 2004. West Coast activities will continue to be administered from the office in Emeryville, CA.

# Products and Services

The company creates original women's footwear designs that are handcrafted in artisan factories, for sale under its branded name, on both the retail and wholesale level, and also acts as a design and manufacturing agency for other footwear companies, on a commissioned and retained basis.

**Business Summary.** Premiera Footwear intends to become the premier branded designer and manufacturer of fashion-forward women's footwear, in the U.S. Already a recognized design manufacturing agency, relied upon by industry behemoths, like Nine West, Steve Madden and Bebe, it plans to launch its own high profile, retail presence, by establishing an inaugural retail store in Manhattan, NY, by October 2004. This facility will integrate upscale retail space, with the company's design studio and a product showroom, positioning Premiera to become a leading design presence, in the footwear industry. Primary revenues will be generated from sales of branded footwear, at the retail and wholesales levels, and from commissions and retainers earned, from design & manufacturing agency services offered to other footwear firms.

## **Premiera Branded Footwear**

**Avg. Retail: \$95 / Pair**  
**Avg. Wholesale: \$39 / Pair**

The company offers original designs, which are meticulously handcrafted in Italian artisan factories and then sold in the finest boutiques, around the world.

- ◆ **Retail:** In October 2004, Premiera will launch its inaugural retail store, in high profile Manhattan, NY. This complex will integrate retail space, with the company's design studio and a showroom, to showcase its designs.
- ◆ **Wholesale:** Premiera is sold in the some of the finest boutiques, in the U.S., Italy, Canada, U.K., Japan and Australia, and is featured in *Lucky*, *Woman's Wear Daily*, *Seventeen*, *Cosmopolitan* and *Footwear News*.

## **Design & Manufacturing Agency**

**Avg. Commission: \$2.16 / Pair**  
**Avg. Retainer: \$8,500 / Client**

The company also designs and manufactures women's footwear for other leading footwear companies, such as Nine West, Steve Madden and Bebe.

- ◆ **Commission Basis:** Because its product turnaround time is the fastest in the industry, Premiera is relied upon by shoe retail giants to execute designs and coordinate large-scale manufacturing, on a commission basis.
- ◆ **Retainer Basis:** Premiera maintain a razor-sharp sense of trend-setting fashions, through frequent trips to fashion capitols of the world, making it a sought-after consulting resource for design and merchandising strategy.

**Fulfillment.** The owners have cultivated manufacturing alliances with artisan factories in Italy, Brazil and China, which are based on near-exclusivity and combine old-world craftsmanship with state-of-the-art technologies — these capabilities, linked with Premiera processes, result in industry-leading turnaround times.

**Competitive Comparison.** Premiera possesses women's footwear design capabilities that have been all but lost, in the U.S. By merging this competitive edge with dependable, overseas manufacturing capabilities, and a high profile retail presence, in Manhattan, NY, the company intends to quickly dominate competition.

**Future Development.** The company intends to leverage the success of its inaugural store, by expanding its retail presence to metropolitan fashion centers, around the globe. Following its emergence as an industry leader, Premiera plans to forge strategic alliances that will lead to other synergistic business opportunities.

# Market and Industry

In 2004, the market for trendy footwear, involving 8.1 million style-conscious women, aged 18 to 35, in six targeted, fashion-leading metropolitan cities, in the U.S., is estimated to be over \$4.4 billion — by 2008, this figure is expected to reach \$5.6 billion, an average annual increase of 6.1%.

**General Market Analysis.** In 2000, U.S. personal consumption of footwear totaled \$46.8 billion, an average annual increase of 5.2%, from 1995 — extrapolation through 2003 suggests that the current U.S. market for shoes is about \$54 billion.<sup>4</sup> Women typically outspend men for shoes, in a ratio of 3:2, accounting for an estimated 60% of total sales<sup>5</sup> — but, while men typically purchase 2 to 4 pairs per year, women will buy to 8 pairs,<sup>6</sup> creating constant pressure to shorten shelf-life and accelerate design and production cycle time.

**Market Segmentation.** Premiera has targeted demand in six, fashion-leading metropolitan areas in the U.S., to market its branded footwear and design agency services. In 2004, the 8.1 million women, aged 18 to 35, that represent 12.9% of the population in these targeted markets, are projected to spend \$4.4 billion on fashion-forward, design-conscious shoes — by 2008, this figure is expected to reach \$5.6 billion, an average annual increase of 6.1%.<sup>7</sup> Consolidated metropolitan areas that have been targeted include **New York, NY** (32%), **Los Angeles, CA** (27%), **Chicago, IL** (14%), **San Francisco, CA** (12%), **Detroit, MI** (8%) and **Atlanta, GA** (7%). These represent 15% of the total U.S. women's footwear market, and heavily influence national patterns.

**Secondary Markets.** In addition to its U.S. markets, Premiera can expect to sell well, in non-U.S. venues, including the UK, Europe, Asia, Canada & Australia.

**General Industry Characteristics.** The U.S. women's footwear industry is dominated by several large, branded companies that rely on overseas manufacturing ties and design agency services to crank out predictable product lines — large overhead and reactionary design mentality have resulted in a stale industry.

KEY COMPETITOR	STRENGTHS	WEAKNESSES
<b>Branded Footwear:</b> <ul style="list-style-type: none"> <li>◆ Steve Madden</li> <li>◆ Charles David</li> <li>◆ BCBG</li> </ul>	Large market share; deep-pocket financing supports large infrastructure, big advertising budgets, and own warehousing and distribution.	Old school design mentality cannot react to trends; large overhead and obsolescent inventories requires high volume sales, at big discounts.
<b>Design Agency Services:</b> <ul style="list-style-type: none"> <li>◆ Inter-Pacific (Los Angeles)</li> <li>◆ Dynasty (Los Angeles)</li> <li>◆ Pagoda (St. Louis)</li> <li>◆ Bennett (Boston)</li> </ul>	Large design and development teams located worldwide; reliable quality & delivery; oversee manufacturing, from overseas offices.	Large organizations with high overhead; requires higher pricing to maintain margins; designs are predictable or recognizable knock-offs.

**Competitive Edge.** Premiera possesses unsurpassed design aptitude and highly developed overseas artisan factory relationships, which will be leveraged with state-of-the-art technological savvy, to generate trend-setting women's footwear, at modest prices, featuring the fastest product cycle times in the industry.

# Strategy and Implementation

*Strategic objectives include maximizing revenues, by establishing a high profile, retail presence in Manhattan, NY; promoting company offerings, through effective, multi-channel marketing; optimizing key operating process; and promoting research & development of new products and markets.*

**Strategic Objectives.** The company's five-year mission is to become the leading branded provider and design manufacturer of trend-setting women's footwear in the U.S. Strategic objectives include: (1) maximizing company revenues, by establishing a high-profile retail presence, in Manhattan, NY; (2) marketing the company's offerings, through multi-channel advertising; (3) optimizing key operating processes, to minimize cost structure and assure customer satisfaction; (3) and sustaining robust research and development.

- **Maximize Company Revenues:** Further business expansion requires that the company assure brand awareness, by establishing a multi-purpose, retail outlet in the heart of the fashion capital of the world. This will entail: (a) locating and occupying prime, leased commercial space, in Manhattan, NY, that will provide a signature, retail presence and will also house a design room and showroom; (b) installing furniture, fixtures & equipment ; (c) hiring qualified salespeople; (d) assuring current inventory, by financing expanded overseas manufacturing of Premiera footwear; and (e) and completing all other pre-operating tasks, necessary to assure a grand opening, by October 1, 2004.
- **Effectively Market Company Offerings:** The company will conduct a multi-channel marketing campaign that includes heavy reliance on print media, direct mailing, web-based advertising, trade-shows, in-house and contracted sales representatives, and strategic alliances with customer groups.
- **Optimize Key Operating Processes:** The company will minimize its cost structure, by migrating from P.O.-financing to internal financing of manufacturing shipments, and will assure long-term customer satisfaction, by periodically evaluating operating processes, to assure continual improvement.
- **Promote Research and Development:** Long-term success will rely on a robust research and development program, which focuses on new services and markets and also studies the economic benefits of internal warehousing, owned manufacturing facilities in Asia, and design studios in Europe.

# Management and Risk Assessment

The owner-founders possess a wealth of relevant industry experience, and are both graduates of the famed Ars Sutoria shoe design school, in Milan, Italy. They will be supported by an equally experienced Director of Operations, along with professional advisors, in both law and accounting.

**Management Team.** The company is led by its owner-founders, who occupy the positions of CEO and President, and by an experienced Director of Operations — they are supported by key professional advisors.

**Lan Contino**  
*Chief Executive Officer*  
 15 years in the women’s footwear industry, involving buying, selling, design & manufacturing. Nordstrom, Steve Madden, Skechers and Bebe. Graduate: Ars Sutoria, Milan, Italy.

**Nick Luciano**  
*President*  
 17 years of experience in women’s footwear, including sales, design and global manufacturing. Previously, Nordstrom and Topline Footwear. Graduate: Ars Sutoria, Milan, Italy.

**Paul Postrio**  
*Director of Operations*  
 15 years of relevant experience, involving every aspect of retail buying and general operations. Merchandiser for over 150 Bebe stores and a women’s shoe buyer for Nordstrom.

**Key Functional Support.** The owners will rely on experienced staff and top-caliber advisors or consultants:

- ◆ *Legal Counsel* — **Randolf Hancock**, attorney, Seattle, WA.; corporate and general business matters.
- ◆ *Accountant* — **James Witten**, CPA, Hicksville, NY; general corporate tax, accounting & audit support.

**Key Success Factors.** The company assumes that the existence of the following factors or assumptions would positively influence success, and that these factors **will occur**:

- *Lender financing will be available in the amount requested, based on reasonable plan projections.*
- *Establishment of NY facilities will be successful and operating processes can be quickly optimized.*
- *Consumer demand will remain high in targeted markets and marketing channels will be effective.*

CONTINGENCY PLAN		
Contingent Event	Likely Consequence	Management Response
Lender financing cannot be obtained, in the amount sought.	Deferral of large, cash-intensive initiatives; slower revenue growth.	Pursue business plan, in modified form; seek investor support.
Delays or operational problems retard scheduled grand opening.	Lower than projected FY1 results; reduced sales, income and cash.	Cash surplus exists to cover contingencies; adopt recovery plan.
New competition or recession weaken overall market demand.	Reduced market share; lower revenue and income growth.	Emphasize marketable distinctions; cut prices; forge alliances.

# Capitalization Plan

*Premiera Footwear is seeking lender commitments, totaling \$250,000, by April 1, 2004, to fund identifiable working capital and capital expenditure requirements of \$190,000, and to provide contingent reserves, totaling \$60,000. Loan collateral exists and later-round financing may occur.*

**Start-Up Condition.** The company's start-up requirements total \$572K, including \$310K in cash, \$170K in accounts receivables, \$90K in inventory, and \$2K in property, plant & equipment. Resources totaled \$322K, including accounts payable and current liabilities, totaling \$269K, plus net owner investments, totaling \$53K.

**Capitalization Plan.** Premiera proposes to fund significant business expansion, by obtaining lender commitments, totaling \$250,000, by April 1, 2004. This cash infusion would be used to cover identifiable working capital requirements, totaling \$150K, along with identifiable capital expenditure requirements totaling \$40K, comprised of property, plant and equipment, and to establish contingent cash reserves, totaling \$60K.

CAPITALIZATION PLAN (\$000)

<b>TOTAL USES</b>	<b>250.0</b>

**Collateral and Possible Later-Round Financing.** As security for the loan commitments, the owners will make underlying company assets available as collateral. The company's competitive advantages and New York retail expansion are expected to result in broad acceptance in targeted U.S. markets. If future business opportunities that would facilitate further growth are identified, then Dolce Vita may seek additional financing.

# Sales

Sales for FY1 through FY5 are forecasted to be \$3.0 million, \$3.7 million, \$4.6 million, \$5.3 million and \$6.0 million, respectively. Primary revenues are generated from sales of Premiera branded footwear, at retail and wholesale, and design agency fees, on commissioned and retained bases.

NOTES: (1) FORECASTED SALES: The company benefits from four major revenue streams -- three of these were ongoing, as of March 31, 2004, and a fourth, Premiera Branded-Retail, is anticipated to commence October 1, 2004, with the opening of a retail outlet, in Manhattan, NY. All revenue streams, except for Design Agency - Retained, are subject to seasonality, which results in monthly variations in sales, as follows:

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
8%	12%	8%	6%	8%	9%	9%	12%	12%	4%	5%	7%	100%

Exception is FY1, Premiera Branded-Retail:

Oct	Nov	Dec	Jan	Feb	Mar	Total
9%	11%	16%	18%	27%	18%	100%

FY1 annual figures, reflect 2004 targets, proportionalized by month to reflect seasonality, except Design Agency-Retained, which is evenly prorated.

FY2 thru FY5 growth for revenue streams, affected by seasonality, reflect the following year-to-year percentage increases:

    Premiera Branded-Retail: FY2/FY1 = 100%; FY3/FY2 = 11%; FY4/FY3 = 3%; FY5/FY4 = 0%.

    Premiera Branded-Wholesale: FY2/FY1 = 20%; FY3/FY2 = 25%; FY4/FY3 = 12%; FY5/FY4 = 10%.

    Design Agency-Commissioned: FY2/FY1 = 13%; FY3/FY2 = 33%; FY4/FY3 = 27%; FY5/FY4 = 21%.

FY1 thru FY5 annual targets for Design/Agency-Retained: = \$100K, \$125K, \$150K, \$175K and \$200K, respectively.

(2) UNIT PRICE: Note that Design Agency-Commissioned = \$12.00 wholesale price x 18%; Design Agency-Retained = Forecasted Sales/Unit Sales.

(3) UNIT SALES: For Design Agency-Commissioned, unit sales are as given; for all other revenue streams, unit sales = Forecasted Sales/Unit Price.

# Net Income

Net income for FY1 is projected to be \$500K — following absorption of new personnel, projected net income is \$294K, in FY2, rising to \$734K, in FY5. During this period, gross margin percentage ranges from 55% to 58% and net income, as a percent of sales is: 17%, 6%, 10%, 11% and 12%.

- NOTES: (1) Reflects multi-channel marketing campaign, including print and web-based advertising, tradeshows and strategic alliances.  
 (2) Assumes 23% payroll burden rate, covering federal and state statutory burdens, plus employee vacation and medical benefits.  
 (3) Reflects rent & utilities associated with permanent administrative offices in Emeryville, CA; temporary administrative offices in NYC (3/04 thru 9/04); and a multi-purpose retail outlet and design showroom, in Manhattan, NY (10/04 and beyond).  
 (4) Reflects professional services, including legal, accounting and IT, along with third party outsourcing of warehouse functions.  
 (5) Reflects need to service customer, supplier and manufacturing arrangements, in Italy, Brazil, China and throughout the U.S.  
 (6) Expenses for FedEx, foot models, samples, product development supplies, bad debt expense, merchant fees and miscellaneous.  
 (7) Reflects interest on primary loan, assuming a 2-year term, with a principal amount of \$250,000, bearing 11% interest.  
 (8) Assumes cumulative, effective federal and state income tax of 30%.

# Cash Flow

Net cash flow is intermittently negative, reflecting seasonal variation in key cash determinants, such as accounts payable, accounts receivable and inventory. Ending cash balance for FY1 is \$525K, rising to \$2.4 million, in FY5. The minimum cash balance is \$60K, occurring in Month 3.

- NOTES: (1) Reflects monthly changes in account balances, as presented in the Financial History and Balance Sheet.  
 (2) Represents monthly repayment of principal, relating to 2-year note, in the amount of \$250,000, bearing 11% interest.  
 (3) Reflects monthly changes in account balances, as presented in the Financial History and Balance Sheet.  
 (4) Reflects monthly changes in account balances, as presented in the Financial History and Balance Sheet.  
 (5) Includes purchases of computers (\$45K), Manhattan, NY, build-out costs (\$23K) and Emeryville, CA furniture, fixtures & equipment (\$5K).

# Balance Sheet

Total assets are projected to increase, from \$1.0 million, at the end of FY1, to \$3.2 million, by the end of FY5. Working capital does not fall below \$328K, in Month 1, and grows to \$772K, by year-end FY1. Debt-to-equity ratio declines, from 0.88, at the end of FY1, to 0.22, at the end of FY5.

NOTES: (1) Sales on credit assumed to be 96%, subject to 45-day collection period.  
(2) Estimated balances, based on Monthly Cost of Sales x 12 months, divided by inventory turns per year, which for FY1 thru FY5 are 7.5, 8.7, 9.0, 9.2 and 9.4, respectively, based on average period of stock on hand for Branded Premiera-Retail (4 months) and Premiera-Wholesale (1 month), weighted by relative allocations of gross sales to each revenue stream.  
(3) Estimated balances, assuming 1% of expenses paid in cash and an average 45-day payment period.  
(4) Reflects declining principal balances, relating to 2-year loan for \$250,000, bearing 11% interest, assumed to occur, by April 1, 2004.

**Key Financial Indicators.** Working capital is not anticipated to fall below \$328K, once lender commitments are obtained, and it is expected to increase from \$772K, at the end of FY1, to \$2,830K, by the end of FY5. The debt-to-equity ratio proportionally declines, from 0.88, at the end of FY1, to 0.22, at the end of FY5.

**Management Representation.** The financial projections included in this business plan represent, to the best of management's knowledge and belief, the results of operations, cash flow and account balances, which would likely occur, assuming Premiera Footwear obtained lender commitments, totaling \$250,000, by April 1, 2004, in support of operations, commencing on that date. Management further asserts that the assumptions underlying these financial projections are reasonable and well supported, and that the resulting financial presentations were prepared in conformity with generally accepted accounting principles, but were not compiled, nor examined, by an independent public accountant, and should not be so viewed.
