Business Confidant does not affirmatively seek client testimonials, nor does it offer incentives for favorable reviews. However, it frequently receives unsolicited evaluations of its performance -- here is a small sampling of client perspective, which reflects the degree of customer satisfaction that has become the hallmark of Business Confidant.

SAMPLING OF TESTIMONIALS

I just wanted to compliment you on the business plan you have just created for my client, Talk Life LLC. The excellence that you put into your process and the format that you have created exemplifies one of the best presentations of a business plan targeted to the investor's eye that I have ever seen.

David M. Talon
Chief Strategy Officer and Partner

Rick, I got the following response from one of my associates -- he is British and has worked for years with investors and banks: "I thought the business plan writer's stuff was excellent. It is a very professional approach to doing plans. I can't remember seeing anything that good anywhere else."

I would use Rick Shepherd again in a minute. I believe that because of that business plan, I won the Athena Powerlink Award from the Phoenix Chamber of Commerce and Ariz State Univ School of Business. This award gives me a panel of 8 experts in different areas of business to advise me for 1 year for free to help me grow my small company into a large company. The Athena Board members were very impressed with my business plan during the interview process, and I believe gave me the edge to win.

Once again, thank you for everything. I can't tell you how long it's been since I have felt so excited and optimistic about my future. The Plan is absolutely amazing. I am so jealous of your talent, I don't know whether to hug you or resent you. In all honesty, as I read the text my eyes began to well up, after all I have been through in the last few years seeing everything coming to fruition is extremely emotional.

Thanks again for all your help and professionalism, and for putting together such a great business plan for me. I can understand why you come so highly recommended.

*Jason Gann
President
America's Big Give, LLC*

I would highly recommend Rick Shepherd to assist in the daunting task of preparing your business plan. I so was overwhelmed trying to write our plan that I put it off for an extended period of time. Rick was able to guide us through the process during numerous phone conversations. He really seemed to understand our objectives of obtaining investment capital and creating a working map of our company at the same time. We will be using Rick's services again, when we write our new plan scheduled for third quarter of this year.

*Robert E. Casper
President
Denne Industries*

We all loved your final product, including our President, Dr. Steve Ams, who expressed delight, after opening the package that was shipped. Please accept our appreciation for a job well done.

*Dr. Adegbonmire
Vice President, Aviation & Tourism Division
Global Interests, LLC*

We were extremely pleased with the services and end-product that we received from working with Rick. He is an exceptional individual, and we found him to be a professional of the highest caliber in every contact we have ever had with him. While we have not as yet been able to complete the necessary funding for our venture, the quality of our business plan, as prepared and produced by Business Confidant has opened many, many doors for us that otherwise would not have been available. We ALWAYS receive very high compliments on our business plan from every individual we have shown it to, which includes numerous venture capitalist groups. I would highly recommend Mr. Shepherd, and without question would use his services again. You may proceed to engage his services with the utmost confidence.

*Russell L. Darrington
VP, Operations
ValeoQuest, Inc.*

We didn't receive funding, but all we had were enormous amounts of compliments and praise for our business plan and presentation. To put it succinctly, you will not get a better, more honest, nor more hard-working consultant to write your plan. I would use Rick again and again and again, and refer ANYONE I know to his services, and I have.

*Russell L. Darrington
VP, Operations
ValeoQuest, Inc.*

Thank you so much. I have spent a lot of money on other business plan services, but for the price with your expertise and professionalism that come with your package, I would rate you and Business Confidant at the top of my list. I hope that we do much business in the future.

*Brian Hafen
Chief Executive Officer
Majestic Waters*

With Mr. Shepherd's guidance, NGAS achieved what a presentation should be, concise, direct with stunning financials. Currently we are in our last round of meetings concerning funding, we adjusted out asking funding from \$5M to \$6M. Also, a detail of positive cash flow was overlooked, Mr. Shepherd caught it, and we adjusted and based on the perception of our foresight, permitting us to be funded for an additional \$2M. Attached is our winning business plan that awarded NGAS \$8M in the worst aviation recession the country has ever faced. NGAS searched for 4 months and concluded Business Confidant was priced much higher than other companies but delivered a better product. All you have on the web to open the door for funding is your Business Plan -- 30 seconds better create an impact on the person who opens your e-mail.
